

PROLACTIN: withdrawals at later times

INSTRUCTIONS

Seriato Withdrawal Center: report **from 9:00 a.m. to 10:00 a.m.**

Trescore Balneario Withdrawal Center: report at 7:30 am.

In all other Withdrawal Centers, report during normal opening hours.

No special preparation is required in the days leading up to the examination. Follow the general preparation instructions for hematochemical examinations.

The examination involves taking a basal blood sample and subsequent infusion of saline while keeping the patient lying down and in a relaxed condition. After 30 minutes, a second blood draw will be performed.

In the event that the medical prescription stipulates different times, the sampling will be performed according to the prescription while maintaining the above conditions.
